WEBVTT

1
00:02:23.010 --> 00:02:24.120
Richard Hoehn: Hello!

2
00:02:26.030 --> 00:02:26.880
Hector Rogel Jr.: Hey! Richard.

3
00:02:29.000 --> 00:02:30.050
Richard Hoehn: Hey! Hector.

4
00:02:31.030 --> 00:02:31.980
Hector Rogel Jr.: How's it going.

5
00:02:32.170 --> 00:02:35.319
Richard Hoehn: Good good. Just got the summary going.

6
00:02:36.630 --> 00:02:42.659
Richard Hoehn: I just literally walked into the hotel room kind of
thing literally. 2 min ago.

7
00:02:43.800 --> 00:02:45.099
Hector Rogel Jr.: How long are you staying.

8
00:02:46.410 --> 00:02:54.920
Richard Hoehn: Not long, not long. Just spending a night here in
Minneapolis. And then I'm driving to

9
00:02:55.930 --> 00:02:59.110
Richard Hoehn: clearly. Co. Ioi told you guys about that.

10
00:02:59.640 --> 00:03:03.680
Richard Hoehn: They're doing the whole client dinner bullshit, and
then

11
00:03:04.340 --> 00:03:09.140
Richard Hoehn: getting up in the morning, driving back to Minneapolis
and flying home on Thursday.

12
00:03:10.470 --> 00:03:16.870
Richard Hoehn: and get home late Thursday night kind of thing, but

13
00:03:17.800 --> 00:03:28.569
Richard Hoehn: I'm super excited, but because, like timing wise, this never never happens. Did literally, you know, live really walked into the door like 2 min ago. Kind of thing.

14
00:03:29.020 --> 00:03:33.150
Richard Hoehn: So that's that's doesn't happen often.

15
00:03:35.150 --> 00:03:38.100
Richard Hoehn: Yeah, very good.

16
00:03:42.180 --> 00:03:43.329
Richard Hoehn: Hey, Isaiah?

17
00:03:44.030 --> 00:03:44.980
Isaiah: Hey? How are y'all doing.

18
00:03:45.260 --> 00:03:48.429
Richard Hoehn: Good! Good! How's your hand coming along.

19
00:03:48.740 --> 00:03:51.399
Isaiah: That's good. I went to.

20
00:03:51.400 --> 00:03:54.979
Richard Hoehn: Amazing. Are you still in in a Oh, wow, okay, okay.

21
00:03:55.380 --> 00:03:58.961
Isaiah: I went to the doctor, and they said that

22
00:04:00.360 --> 00:04:03.979
Isaiah: I had just bruised it really, really, really, badly.

23
00:04:04.560 --> 00:04:07.200
Richard Hoehn: Hadn't actually broken it.

24
00:04:07.490 --> 00:04:09.500
Richard Hoehn: Okay? So no damage. That's good.

25
00:04:09.500 --> 00:04:11.430
Isaiah: Very grateful for that.

26
00:04:12.890 --> 00:04:15.770
Isaiah: I am not going to go mountain biking again until the semester
is over, though.

27
00:04:17.079 --> 00:04:19.719
Richard Hoehn: Okay, well, that's only like 3 weeks. So.

28
00:04:19.720 --> 00:04:20.380
Isaiah: Yeah, exactly.

29
00:04:20.717 --> 00:04:23.419
Richard Hoehn: So, yeah, you can hold off that long.

30
00:04:23.610 --> 00:04:26.380
Isaiah: I should be able to make it 3 weeks.

31
00:04:28.650 --> 00:04:29.440
Richard Hoehn: Oh,

32
00:04:33.780 --> 00:04:34.810
Isaiah: Y'all doing okay?

33
00:04:35.760 --> 00:04:36.270
Hector Rogel Jr.: Yeah.

34
00:04:36.270 --> 00:04:40.900
Richard Hoehn: Yeah, a little stress. Just you know, I hear you.

35
00:04:40.900 --> 00:04:42.439
Isaiah: It's a crazy time right now.

36

00:04:42.440 --> 00:04:46.699
Richard Hoehn: Yeah, I should. I shouldn't. I shouldn't be gone kind
of thing it just.

37
00:04:47.650 --> 00:04:48.599
Richard Hoehn: But I will.

38
00:04:48.860 --> 00:04:49.780
Isaiah: Where are you?

39
00:04:49.780 --> 00:04:51.120
Richard Hoehn: Minneapolis.

40
00:04:51.120 --> 00:04:52.499
Isaiah: Oh, wow! Okay.

41
00:04:52.660 --> 00:04:53.420
Richard Hoehn: Yeah.

42
00:04:56.550 --> 00:05:06.369
Richard Hoehn: I did work on on some of the stuff. I followed your
lead. Hector, heavily, like, literally took your matrix.

43
00:05:07.320 --> 00:05:15.829
Richard Hoehn: And you know, deleted everything out. Put my companies
in, and then, to be kind, I ran, chat, gpt on most of it to get to
get.

44
00:05:16.510 --> 00:05:17.700
Richard Hoehn: Information.

45
00:05:19.200 --> 00:05:25.610
Richard Hoehn: what did you do, Hector? You kind of created then? A
word document. You showed us something, but I can't remember

46
00:05:25.800 --> 00:05:29.830
Richard Hoehn: it. It wasn't. It was just yours, right kind of thing
that you did.

47

00:05:29.830 --> 00:05:30.220
Hector Rogel Jr.: Yes.

48
00:05:31.100 --> 00:05:36.469
Richard Hoehn: Is is that required? Is, am I kind of behind like? Do we need to do that?

49
00:05:37.250 --> 00:05:41.840
Hector Rogel Jr.: It's for your your individual analysis instead.

50
00:05:42.570 --> 00:05:49.390
Hector Rogel Jr.: For cause, like, it should be like under the analysis folder, any repo.

51
00:05:50.670 --> 00:05:57.730
Richard Hoehn: Okay, did, did you? You did your matrix, I guess first.st And then you did your analysis

52
00:05:57.900 --> 00:05:59.130
Richard Hoehn: from the matrix.

53
00:05:59.720 --> 00:06:03.980
Richard Hoehn: Okay, okay, I might.

54
00:06:05.200 --> 00:06:06.759
Richard Hoehn: The the thing.

55
00:06:06.980 --> 00:06:14.369
Richard Hoehn: See? Would you mind sharing that again like you? I think you sent it in a chat, and that that's long gone

56
00:06:16.345 --> 00:06:18.760
Richard Hoehn: upload to Github.

57
00:06:19.020 --> 00:06:23.419
Richard Hoehn: Oh, okay, well, no, no problem then don't worry about that's the whole idea of Github.

58
00:06:23.600 --> 00:06:24.290

Hector Rogel Jr.: Alright!

59
00:06:24.290 --> 00:06:24.900
Richard Hoehn: Let me see.

60
00:06:24.900 --> 00:06:27.429
Hector Rogel Jr.: He's like. I think that I did it right, though.

61
00:06:31.630 --> 00:06:32.530
Richard Hoehn: Okay.

62
00:06:38.410 --> 00:06:42.269
Richard Hoehn: so okay, I'm just gonna upload the policies I found.

63
00:06:49.140 --> 00:06:55.550
Richard Hoehn: Oh, I see here this word document. Oh, you create an excels and word out of it. Okay, okay.

64
00:07:03.690 --> 00:07:12.489
Richard Hoehn: okay, I'll follow your lead here, Hector. On the word. And then the excel. You just pulled what you had before. On Google.

65
00:07:12.790 --> 00:07:13.210
Hector Rogel Jr.: Yes.

66
00:07:13.210 --> 00:07:15.689
Richard Hoehn: And and just created an excel out of it. Okay.

67
00:07:16.410 --> 00:07:18.009
Isaiah: Okay, yeah, I can do that.

68
00:07:18.020 --> 00:07:21.049
Richard Hoehn: Did you see where we were doing that? I see. Yeah.

69
00:07:22.060 --> 00:07:23.419
Isaiah: Yeah, I saw it.

70
00:07:23.420 --> 00:07:26.240

Richard Hoehn: Google Sheet, the the Tabs kind of thing.

71
00:07:26.240 --> 00:07:29.189
Isaiah: Yeah, yeah, I saw that I just haven't had a chance to work on it yet.

72
00:07:30.360 --> 00:07:31.120
Richard Hoehn: Okay?

73
00:07:32.860 --> 00:07:37.449
Richard Hoehn: I think Hector worked some on the the project.

74
00:07:38.180 --> 00:07:40.860
Richard Hoehn: Google, Doc, right? That's cool.

75
00:07:41.070 --> 00:07:41.690
Isaiah: Awesome.

76
00:07:41.800 --> 00:07:50.290
Richard Hoehn: Is a project 6 or 5. Hectare, because we named the project 6. But the the titles project 5.

77
00:07:50.950 --> 00:07:51.969
Isaiah: I think it's projects.

78
00:07:52.110 --> 00:07:53.220
Isaiah: 6, yeah.

79
00:07:53.220 --> 00:07:54.600
Hector Rogel Jr.: Let me crack that.

80
00:07:54.600 --> 00:07:57.259
Richard Hoehn: You change it? Yeah. Okay. Great. Thank you.

81
00:08:00.180 --> 00:08:05.900
Hector Rogel Jr.: Basically that basically just use the same outline as the glass project.

82

00:08:06.060 --> 00:08:06.670
Isaiah: Right.

83
00:08:08.530 --> 00:08:11.259
Richard Hoehn: This is gonna be tricky right? Like.

84
00:08:16.560 --> 00:08:20.870
Hector Rogel Jr.: How do we combine all the different companies
together?

85
00:08:21.390 --> 00:08:25.650
Hector Rogel Jr.: It's like, we're each doing 3 companies separately.

86
00:08:27.000 --> 00:08:31.130
Isaiah: I thought we only had to have. I thought we only had to
analyze like 2 or 3 in our final report.

87
00:08:31.380 --> 00:08:31.810
Richard Hoehn: Yeah.

88
00:08:31.810 --> 00:08:32.620
Hector Rogel Jr.: Do we.

89
00:08:33.090 --> 00:08:34.580
Richard Hoehn: I think it's just a few.

90
00:08:35.219 --> 00:08:42.389
Richard Hoehn: What we could do is only then in our report each one of
us does. Maybe one.

91
00:08:42.710 --> 00:08:45.079
Isaiah: Right. That would be the easiest to analyze.

92
00:08:45.080 --> 00:08:52.629
Richard Hoehn: Yeah, you know, and we kind of almost have a sub here,
if I.

93
00:08:54.000 --> 00:08:59.190
Hector Rogel Jr.: But just make sure that in your analysis, to select

3 or 4 services per person.

94
00:08:59.190 --> 00:08:59.780
Richard Hoehn: Yeah.

95
00:09:00.090 --> 00:09:00.880
Isaiah: Right.

96
00:09:00.880 --> 00:09:05.519
Richard Hoehn: Yeah, like. And then maybe all of us could have kind of almost like a sub.

97
00:09:06.520 --> 00:09:10.579
Richard Hoehn: So what what is this? This is heading one that may be heading 2.

98
00:09:11.850 --> 00:09:19.540
Richard Hoehn: We could do, you know, and you know, and then I choose one of them

99
00:09:20.790 --> 00:09:23.129
Richard Hoehn: one of mine. Would that work.

100
00:09:24.370 --> 00:09:28.490
Isaiah: Yeah, we can do that. And then we have at the end kind of like a summary

101
00:09:29.260 --> 00:09:33.180
Isaiah: part that like pulls everything together, talks about, like our commonalities and everything.

102
00:09:49.100 --> 00:09:56.010
Richard Hoehn: Are we? Are you guys gonna work on it some? When when is it? Do we? We submit tomorrow, right.

103
00:09:56.010 --> 00:09:57.170
Hector Rogel Jr.: Tomorrow. Night. Yeah.

104
00:09:57.170 --> 00:09:57.990

Richard Hoehn: Okay.

105
00:09:57.990 --> 00:10:00.929
Isaiah: I was gonna throw a lot of work at it today.

106
00:10:01.080 --> 00:10:03.570
Richard Hoehn: Okay, what if we?

107
00:10:05.440 --> 00:10:11.020
Richard Hoehn: What if each of us chooses one to do this sub bullet point?

108
00:10:11.680 --> 00:10:13.330
Richard Hoehn: And then maybe

109
00:10:15.180 --> 00:10:34.600
Richard Hoehn: maybe tomorrow evening, we'll kind of say, maybe by 10 we'll submit again. I can. I can do that again. We'll just do our usual. I think that's worked. But I wonder if we should massage them a little bit into each other. I think he'll read real funny again. Kind of thing if we we don't kind of

110
00:10:35.120 --> 00:10:40.200
Richard Hoehn: maybe merge a little bit our stuff, but.

111
00:10:40.780 --> 00:10:43.629
Isaiah: Yeah, that's true.

112
00:10:43.630 --> 00:10:49.780
Richard Hoehn: You know what got like it's hard to say, but my gut fan tells me this will look feel a little odd if

113
00:10:50.250 --> 00:11:05.540
Richard Hoehn: if I write the overview of services analyzed, based on mine, and you write yours, and it'll be then not really an overview of services analyzed because you would want one big one in a report rather than 4,

114
00:11:06.880 --> 00:11:08.860
Richard Hoehn: or you know we could. Maybe

115
00:11:09.280 --> 00:11:14.040
Richard Hoehn: we could still all do our work and see if we find
commonalities to kind of.

116
00:11:15.290 --> 00:11:16.980
Isaiah: Think that's what we'll need to do is

117
00:11:17.290 --> 00:11:22.989
Isaiah: we kind of analyze our services separately, and then we can
smush them together and get a final.

118
00:11:22.990 --> 00:11:23.620
Richard Hoehn: Yeah.

119
00:11:24.020 --> 00:11:29.619
Richard Hoehn: And this is maybe the benefit of in a Google Doc. You
know, we can all kind of poke around in it. And.

120
00:11:29.900 --> 00:11:30.454
Isaiah: Yeah.

121
00:11:31.650 --> 00:11:35.990
Richard Hoehn: All right open to suggestions, though this one's a
little tricky.

122
00:11:37.260 --> 00:11:39.468
Richard Hoehn: Because it's submittable. Tomorrow.

123
00:11:41.790 --> 00:11:44.510
Isaiah: It's any other weekend than this one. It would have been
better.

124
00:11:44.510 --> 00:11:47.485
Richard Hoehn: Oh, yeah.

125
00:11:48.320 --> 00:11:49.330
Isaiah: That is fine.

126
00:11:49.760 --> 00:11:54.619
Richard Hoehn: Hi, look! This is this, what is this second to last
one? That's how I'm thinking of it.

127
00:11:54.620 --> 00:11:55.040
Hector Rogel Jr.: Yes.

128
00:11:55.040 --> 00:12:02.500
Richard Hoehn: So yes, and we did good. I I got a I got a 60. I'm I'm
assuming you guys got it, too. Right.

129
00:12:03.030 --> 00:12:03.879
Isaiah: Yep. Yes.

130
00:12:03.880 --> 00:12:05.450
Richard Hoehn: Where is that thing?

131
00:12:05.740 --> 00:12:13.330
Richard Hoehn: So that was nice. He's probably not updated the other
thing because I never got a.

132
00:12:16.170 --> 00:12:20.909
Isaiah: I haven't gotten a notification for it. You can, I think, get
grades changed without a notification, though

133
00:12:21.050 --> 00:12:22.720
Isaiah: it's like it's worth checking.

134
00:12:22.720 --> 00:12:24.430
Richard Hoehn: Oh, mine! Isn't this.

135
00:12:24.430 --> 00:12:24.990
Isaiah: Okay.

136
00:12:25.740 --> 00:12:30.989
Richard Hoehn: But look at this. I mean we're knocking it out of the
park here 40, 60, 40, 60.

137

00:12:31.140 --> 00:12:32.699
Isaiah: Not bad. Yeah.

138
00:12:35.340 --> 00:12:37.020
Richard Hoehn: So

139
00:12:38.150 --> 00:12:51.269
Richard Hoehn: yeah, oh, he hasn't. He hasn't graded 5 that we've
already submitted yet. Okay, and we're working on 6. And then,
whatever this thing is, what did he see? Nice feedback? Richard was
insightful to read.

140
00:12:52.750 --> 00:12:59.110
Richard Hoehn: Okay, yep, okay.

141
00:13:04.060 --> 00:13:05.930
Richard Hoehn: I will work on my stuff

142
00:13:06.190 --> 00:13:08.739
Richard Hoehn: tonight, too. I've got a dinner.

143
00:13:09.810 --> 00:13:12.501
Richard Hoehn: Which will involve drinking wine. But

144
00:13:14.160 --> 00:13:15.500
Richard Hoehn: Does that go with writing?

145
00:13:15.740 --> 00:13:24.319
Richard Hoehn: Hey? I'm go, you guys are gonna be be be jealous. I'm
going to a Argentinian steak restaurant.

146
00:13:24.610 --> 00:13:25.580
Isaiah: Man.

147
00:13:25.740 --> 00:13:26.890
Richard Hoehn: Oh, yeah. Yeah.

148
00:13:26.890 --> 00:13:27.870
Isaiah: Okay. Yep.

149
00:13:28.184 --> 00:13:31.960
Richard Hoehn: You go out without? Let me see, where is it? I should

150
00:13:32.190 --> 00:13:35.980
Richard Hoehn: kind of going out, you know, going out with other
people's monies.

151
00:13:37.660 --> 00:13:38.740
Isaiah: He's the best, isn't it?

152
00:13:38.740 --> 00:13:43.899
Richard Hoehn: Yeah. This one here Argentinian Steakhouse in the
north, Louf of Minneapolis.

153
00:13:43.900 --> 00:13:44.780
Hector Rogel Jr.: Or sandbox.

154
00:13:44.780 --> 00:13:48.290
Hector Rogel Jr.: You guys like steak, you guys might be vegetarians.
And then this doesn't mean any more.

155
00:13:49.360 --> 00:13:51.050
Richard Hoehn: Where, the by the.

156
00:13:53.890 --> 00:13:54.960
Hector Rogel Jr.: Good to share.

157
00:13:55.330 --> 00:13:56.230
Richard Hoehn: I'm sorry.

158
00:13:56.470 --> 00:13:57.520
Hector Rogel Jr.: Who's the chef?

159
00:13:57.740 --> 00:14:00.839
Richard Hoehn: Oh, I don't know. I don't think he's super famous,
Daniel.

160

00:14:00.840 --> 00:14:02.079
Hector Rogel Jr.: Can Yerta Prado.

161
00:14:03.270 --> 00:14:07.880
Richard Hoehn: Argentine Chef. Child. Parents of a Spanish.

162
00:14:09.810 --> 00:14:12.559
Hector Rogel Jr.: So like it. Really, it's a small town.

163
00:14:13.880 --> 00:14:15.010
Hector Rogel Jr.: Why, right?

164
00:14:15.010 --> 00:14:16.500
Hector Rogel Jr.: Trying to put a bow like that.

165
00:14:18.120 --> 00:14:22.629
Richard Hoehn: Yeah, I mean, maybe that is as a I mean, I think
Minneapolis is bigger than Nashville.

166
00:14:22.910 --> 00:14:23.500
Hector Rogel Jr.: Well.

167
00:14:39.000 --> 00:14:40.350
Richard Hoehn: half a million.

168
00:14:40.660 --> 00:14:42.519
Richard Hoehn: I guess I can do Wiki.

169
00:14:44.600 --> 00:14:48.150
Hector Rogel Jr.: Is that? What? Where the Twin Twin Cities are at.

170
00:14:48.487 --> 00:14:52.540
Richard Hoehn: Yeah. Minneapolis, Saint Paul, that's why they call it
the twin, cities.

171
00:14:52.850 --> 00:14:53.910
Isaiah: Okay.

172

00:14:53.910 --> 00:14:54.460
Richard Hoehn: Yeah.

173
00:14:55.360 --> 00:14:57.540
Isaiah: I've heard that that's supposed to be like a really good place to live.

174
00:14:59.030 --> 00:15:00.889
Richard Hoehn: Yeah. Look. By the way, see?

175
00:15:01.496 --> 00:15:03.320
Isaiah: It's hit a pen.

176
00:15:03.320 --> 00:15:04.830
Richard Hoehn: Yeah, now we know.

177
00:15:05.390 --> 00:15:09.650
Richard Hoehn: Yeah, okay, so 430,000

178
00:15:10.270 --> 00:15:14.193
Richard Hoehn: or so. So I may be a little bit smaller than

179
00:15:15.680 --> 00:15:16.830
Richard Hoehn: Nashville.

180
00:15:16.960 --> 00:15:20.640
Isaiah: Well, but when you consider what's the other half the Twin Cities, Saint Paul.

181
00:15:21.090 --> 00:15:21.860
Richard Hoehn: Yeah.

182
00:15:22.840 --> 00:15:23.580
Isaiah: Bigger.

183
00:15:30.040 --> 00:15:31.370
Richard Hoehn: Minnesota.

184

00:15:34.550 --> 00:15:39.220
Richard Hoehn: Yeah. Look seen, there's 300,000, and see if you do.

185
00:15:39.450 --> 00:15:40.610
Richard Hoehn: Maps.

186
00:15:48.010 --> 00:15:50.730
Richard Hoehn: Minneapolis. See this. See? I mean, these are.

187
00:15:51.080 --> 00:15:52.300
Isaiah: They're just right next to each other.

188
00:15:52.520 --> 00:15:56.560
Richard Hoehn: Yeah. And let me see, where am I actually, can I click on this?

189
00:15:59.150 --> 00:16:05.749
Richard Hoehn: Oh, okay, I am. I'm right here. See? I'm right. That's why I literally.

190
00:16:06.130 --> 00:16:07.879
Isaiah: You're literally right in the middle.

191
00:16:08.350 --> 00:16:18.750
Richard Hoehn: Well, because I I'm going to get the rental car tomorrow. So I decide to, you know. Stay right close to the airport here. I don't know where the rental cars are. Kind of thing.

192
00:16:19.570 --> 00:16:25.900
Isaiah: Yeah, but it's close enough that you can like walk or whatever I could. Yeah, so yeah, uber.

193
00:16:26.080 --> 00:16:32.269
Richard Hoehn: Yeah, I'm next to this really thing that the Mall of America.

194
00:16:32.490 --> 00:16:33.450
Isaiah: Oh, that's cool!

195

195
00:16:33.450 --> 00:16:35.570
Richard Hoehn: Yeah, where is that thing is this?

196
00:16:38.660 --> 00:16:42.800
Richard Hoehn: That's it's kind of evidently pretty famous.

197
00:16:48.200 --> 00:16:53.269
Richard Hoehn: Oh, right? Next, okay, right? This. So evidently this
is massive, this mall of America.

198
00:16:53.910 --> 00:16:56.510
Richard Hoehn: and I guess I'm right here.

199
00:16:56.510 --> 00:16:57.810
Isaiah: Oh, wow! So you're really close.

200
00:17:01.450 --> 00:17:05.937
Richard Hoehn: hang on all right. Well, sorry for taking us off. Topic
here.

201
00:17:08.500 --> 00:17:09.579
Isaiah: We're just jealous.

202
00:17:11.681 --> 00:17:18.319
Richard Hoehn: The dinner is, gonna be good. But then, guys, I'm
driving like we spoke about that clear lake, Iowa. Not very big.

203
00:17:18.880 --> 00:17:19.859
Isaiah: Oh no!

204
00:17:19.869 --> 00:17:27.415
Richard Hoehn: No, I'm gonna have to go out to dinner there, too. It's
not gonna be an Argentinian steak restaurant, I can tell you that.

205
00:17:27.730 --> 00:17:29.230
Isaiah: I'm guessing not.

206
00:17:31.700 --> 00:17:39.930
Richard Hoehn: No, no, okay. So our plan is.

207
00:17:40.490 --> 00:17:42.480
Richard Hoehn: I'm going to finish doing my

208
00:17:42.990 --> 00:17:47.149
Richard Hoehn: matrix, which I'm practically done. Synthesize a little bit.

209
00:17:47.150 --> 00:17:47.690
Isaiah: Sure.

210
00:17:47.690 --> 00:17:54.610
Richard Hoehn: I'm gonna try and create like a word document kind of similar to yours, Hector. But then we're gonna work on kind of

211
00:17:55.740 --> 00:18:04.239
Richard Hoehn: summarizing our stuff into maybe subheadings here, and we can even label them right now with our initials.

212
00:18:04.890 --> 00:18:14.380
Richard Hoehn: And just get this stuff onto paper. So we can slowly kind of merge it together is, is, W-, would you guys agree on that? Okay.

213
00:18:14.480 --> 00:18:17.599
Isaiah: And then do we each want to take one of those other bullet points

214
00:18:17.880 --> 00:18:19.530
Isaiah: to kind of work on too.

215
00:18:20.310 --> 00:18:21.480
Richard Hoehn: Each other, bullet points.

216
00:18:21.480 --> 00:18:25.180
Isaiah: The key findings, the compliance, assessment, all those.

217
00:18:25.740 --> 00:18:35.340
Richard Hoehn: Yeah, see, I think that one that one can be kind of

interesting, because I bet I can say one of my key findings in mine right.

218
00:18:35.340 --> 00:18:35.890
Isaiah: That's true.

219
00:18:36.090 --> 00:18:40.960
Richard Hoehn: That will be, I think, just this overview of all of them. We analyze.

220
00:18:40.960 --> 00:18:45.890
Isaiah: Oh, okay, so like our individual analysis kind of slots into all of these individual buckets.

221
00:18:45.890 --> 00:18:50.319
Richard Hoehn: Yeah, here I can say, Hey, Ikea is very

222
00:18:50.630 --> 00:18:53.920
Richard Hoehn: European, right? Kind of thing, you know, or something.

223
00:18:54.140 --> 00:18:54.750
Isaiah: Sure.

224
00:18:55.000 --> 00:18:55.720
Richard Hoehn: You know, but.

225
00:18:55.720 --> 00:18:56.320
Isaiah: Yeah, that makes sense.

226
00:18:56.320 --> 00:19:03.000
Richard Hoehn: I think this one, maybe we also just do, you know.

227
00:19:07.020 --> 00:19:14.100
Richard Hoehn: like that, recommendations for improvement that I'm not sure. Well, there, we can just also pick each. Each one of us

228
00:19:14.430 --> 00:19:23.170
Richard Hoehn: picks one of our things, and we just write a quick 2 sentence recommendation. And then we've got quite a few

recommendations. Kind of thing. You know the plural.

229
00:19:23.970 --> 00:19:24.540
Isaiah: Right.

230
00:19:24.860 --> 00:19:27.889
Richard Hoehn: And lessons learned we can take a stab at.

231
00:19:28.890 --> 00:19:35.779
Richard Hoehn: I almost think once we get our data or or kind of some of our thoughts onto this final document.

232
00:19:38.730 --> 00:19:40.720
Richard Hoehn: It will make it easier to just

233
00:19:41.000 --> 00:19:46.090
Richard Hoehn: create a you know kind of a little bit more cohesive analysis.

234
00:19:47.420 --> 00:19:48.120
Isaiah: Right.

235
00:19:48.120 --> 00:19:48.840
Richard Hoehn: Okay.

236
00:19:51.020 --> 00:19:51.949
Isaiah: Yeah, sounds good.

237
00:19:57.070 --> 00:20:00.149
Hector Rogel Jr.: And then don't forget to do. Step 5 and step 6.

238
00:20:01.570 --> 00:20:03.260
Isaiah: Which one of those.

239
00:20:03.910 --> 00:20:07.949
Hector Rogel Jr.: And step 5 step 6 in the group. Project privacy.

240
00:20:09.160 --> 00:20:10.040

Isaiah: Oh, yeah.

241
00:20:10.240 --> 00:20:10.880
Richard Hoehn: When.

242
00:20:11.650 --> 00:20:13.570
Isaiah: Yeah. The regulatory comparison.

243
00:20:14.760 --> 00:20:16.539
Hector Rogel Jr.: And the comparative analysis.

244
00:20:17.100 --> 00:20:17.760
Isaiah: Right?

245
00:20:18.140 --> 00:20:21.099
Isaiah: Like common elements, unique features. I see.

246
00:20:31.090 --> 00:20:32.210
Isaiah: Yeah, sounds good.

247
00:20:32.630 --> 00:20:34.789
Isaiah: If we hit our individual analysis

248
00:20:34.940 --> 00:20:40.969
Isaiah: done like today or early tomorrow, then we can hack together
the rest of it tomorrow night.

249
00:20:41.330 --> 00:20:42.409
Richard Hoehn: Yeah. Yeah.

250
00:20:42.660 --> 00:20:45.329
Richard Hoehn: Yeah. Oh, God.

251
00:20:45.929 --> 00:20:46.529
Isaiah: No.

252
00:20:46.770 --> 00:20:47.340
Richard Hoehn: Yeah.

253
00:20:50.540 --> 00:20:51.210
Isaiah: It's fun!

254
00:20:51.370 --> 00:20:52.230
Richard Hoehn: Okay.

255
00:20:52.230 --> 00:20:53.129
Isaiah: We're almost done.

256
00:20:54.530 --> 00:20:57.340
Hector Rogel Jr.: Yep can wear it, though.

257
00:21:03.410 --> 00:21:07.479
Richard Hoehn: Well, how about I let you guys go? I'm gonna work some on this

258
00:21:07.720 --> 00:21:10.680
Richard Hoehn: here until I have to get get to dinner and all that.

259
00:21:11.020 --> 00:21:17.720
Richard Hoehn: But good chatting, I'll try and send the summary out to Carson, since he kind of missed this one.

260
00:21:18.050 --> 00:21:18.530
Isaiah: Sure.

261
00:21:22.350 --> 00:21:22.880
Richard Hoehn: No worries.

262
00:21:22.880 --> 00:21:23.700
Isaiah: That sounds good.

263
00:21:25.813 --> 00:21:26.579
Richard Hoehn: Do we?

264
00:21:27.300 --> 00:21:32.249
Richard Hoehn: Can we play it by year a little bit tomorrow, I guess,

when we meet up. But, like, you know.

265
00:21:32.480 --> 00:21:38.319
Richard Hoehn: I might not be able to meet up before 7, I think, just realistically even 8, probably.

266
00:21:38.610 --> 00:21:43.650
Isaiah: Yeah, I have a conference tomorrow. So like, I have no idea what my schedule is. Gonna be like or not.

267
00:21:44.129 --> 00:21:46.100
Isaiah: I don't know if I'll be able to meet.

268
00:21:46.690 --> 00:21:50.500
Isaiah: I think that I'll be at a dinner. It's supposed to go until like 6 or 9,

269
00:21:51.420 --> 00:21:54.420
Isaiah: so I don't know. I'll be able to meet tomorrow night or not.

270
00:21:54.650 --> 00:21:55.330
Richard Hoehn: Okay.

271
00:21:55.840 --> 00:21:57.040
Isaiah: Keeps you all up to date, though.

272
00:21:57.040 --> 00:22:00.819
Richard Hoehn: Okay, well, I think we kind of know what we're doing, you know.

273
00:22:03.450 --> 00:22:05.430
Hector Rogel Jr.: I just kind of like grunt work.

274
00:22:06.880 --> 00:22:09.280
Richard Hoehn: Yeah, we know what we're doing now, we just have to get it done.

275
00:22:09.460 --> 00:22:12.180
Richard Hoehn: Yeah, exactly. Yeah.

276
00:22:12.180 --> 00:22:13.449
Isaiah: That's often the hard part.

277
00:22:13.450 --> 00:22:17.920
Richard Hoehn: Yeah. Gosh, okay.

278
00:22:20.740 --> 00:22:22.249
Isaiah: Alright. Well, good luck, guys.

279
00:22:22.250 --> 00:22:22.950
Richard Hoehn: Okay.

280
00:22:22.950 --> 00:22:23.870
Richard Hoehn: Alright. Thank you.

281
00:22:23.870 --> 00:22:25.279
Richard Hoehn: Guys care.
